

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF
NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office APR 19 2002

Returned to applicant for correction _____

Corrected application filed _____

Map filed APR 19 2002 under 68719

The applicant **Lisa A. Schirmeister and Joseph W. Johnson**, hereby makes application for permission to change the **Point of Diversion and Place of Use of a Portion** of water heretofore appropriated under **Permit 49276**

1. The source of water is **Underground**
2. The amount of water to be changed **0.1308 cfs not to exceed 55.5/acre-feet**
3. The water to be used for **Irrigation**
4. The water heretofore permitted for **Irrigation**
5. The water is to be diverted at the following point **SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 26, T.11N., R.26E., M.D.B.&M., or at a point from which the E $\frac{1}{4}$ corner of said Section 26 bears S. 84°38'22" E., a distance of 1100.00 feet.**
6. The existing permitted point of diversion is located within **Within the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 16, T.10N, R.27E., M.D.B.&M., or at a point from where the S $\frac{1}{4}$ corner of said Section 16 bears S. 50°11'28" E., a distance of 2297.76 feet.**
7. Proposed place of use **SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 26, T.11N., R.26E., M.D.B.&M.**
8. Existing place of use **See Exhibit "A"**
9. Use will be from **April 1 to October 31** of each year.
10. Use was permitted from **April 1 to October 31** of each year.
11. Description of proposed works **Drilled well, equipped with a motor, pump, meter and distribution system.**
12. Estimated cost of works **\$50,000.00**
13. Estimated time required to construct works **Three (3) Years**
14. Estimated time required to complete the application of water to beneficial use **Five (5) Years**
15. Remarks: **This Application is being filed to Change the Point of Diversion and Place of Use of a portion of Permit 49276 appertenant to 54 acres within the described Place of Use and further described as APN 12-471-79. The total combined duty of Applications to Change portions of Permits 49274, 49276, 49277 and 49278 shall not exceed 216 acre-feet.**

Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 49276 is issued subject to the terms and conditions imposed in said Permit 49276 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permits 68719, 68720, 68721 and 68722 and any water of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 216.0 acre-feet per season for the irrigation of 54.0 acres. The permit holder is responsible for insuring delivery of the entitled decreed and storage waters that are supplemental to these permits. In any year the Walker River Irrigation District declares a full allocation of decreed water to the priority years of C-125 decree claims supplemental to these permits; underground water shall not be pumped from the wells described in these permits.

These permits for underground water are issued as a supplemental water supply to lands that have a surface water right from the East Walker River from Claim Nos. 17 and 133 of the Walker River Decree C-125 or from storage water provided from the Walker River Irrigation District.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1308 cubic feet per second, but not to exceed 55.51 acre-feet seasonally, and not to exceed a seasonal duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

November 4, 2004

Proof of completion of work shall be filed before:

December 4, 2004

Water must be placed to beneficial use on or before:

November 4, 2006

Proof of the application of water to beneficial use shall be filed on or before:

December 4, 2006

Map in support of proof of beneficial use shall be filed on or before:

December 4, 2006

IN TESTIMONY WHEREOF, I, HUGH RICCI, P.E.,

State Engineer of Nevada, have hereunto set
